# Homeroom Guidance Grade 3

## Quarter 2 – Module 5:

### Learning Around Me

#### Gabay sa Magulang/Tagapag-alaga

Isinulat ang modyul na ito upang gabayan ang mag-aaral na linangin ang kaniyang aspektong pansarili at pakikipagkapuwa, akademiko, at karera. Dinisenyo ito para sa *distance learning* o alternatibong pamamaraan ng pagkatuto na hindi nangangailangan ng pisikal na presensya sa paaralan, bilang tugon sa direktiba sa pag-iingat dulot ng pandemyang Covid-19.

Hinihiling ang inyong paggabay upang matagumpay na maisakatuparan ng mag-aaral ang mga tagubilin upang masigurong maisagawa at masasagot ang mga gawain at katanungan (*Processing Questions*) sa bondpaper o malinis na papel.

- Gawain 1: Tumukoy ng isang karanasan at ang mga aral na napulot mula rito.
- Gawain 2: Tukuyin ang iba't ibang karanasan sa bahay, sa paaralan at sa komunidad. Sa bawat karanasan, isulat ang napag-aralan at kung paano binago ang iyong pag-uugali o pag-iisip.
- Gawain 3: Basahin ang talata tungkol sa pagpapahalaga sa mga karanasan ng isang tao at sa mga aral na makukuha mula rito.
- Gawain 4: Magbahagi ang mag-aaral at magulang/tagapag-alaga ng tig-tatlong halimbawa kung saan magagamit ang mga napag-aralan mula sa mga karanasan sa buhay. Magsalitan sa pagbabahagi.
- Gawain 5: Kumpletuhin ang mga salaysay batay sa iyong kakayanan na gumawa ng isang bagay dulot ng mga natutunan mo sa iyong mga karanasan.
- Gawain 6: Guguhit ang mag-aaral ng isang simbolo na nagrerepresenta ng kanyang di makakalimutang karanasan sa buhay. Isulat ang pinakamahalagang aral na napulot mula sa karanasang ito at ang kahalagan ng patuloy na mag-aaral.

Maaaring may mga pagkakataon na hingin ng mag-aaral ang inyong patnubay sa pagsunod sa mga tagubilin at pagsagot sa mga tanong sa bawat bahagi ng mga gawain. Hinihiling ng Kagawaran ang inyong suporta upang matagumpay niyang maisakatuparan ang mga gawaing ito. Makatutulong ang araling ito upang hubugin ang kaniyang kakayanan at pagpapahalaga sa pagpili ng tamang aksyon sa bawat sitwasyon. Tiyakin na sasagutin niya ang bawat bahagi ng modyul nang tapat. Siguruhing maipapasa niya ang kaniyang sagutang papel sa petsa at oras na itinakda ng kaniyang gurong-tagapayo.

# Introductory Message

For the learner:

This module is designed for learners like you to help you analyze the relevance of experiences in school and community toward academic success; share the lessons you learned from school and community that you can use in daily living and apply these lessons to daily living with consideration to family and society.

The module has six interactive activities for you to follow, namely:

Let's Try This – which will help you get ready to learn;

Let's Explore This – which will guide you towards what you need to learn;

Keep in Mind – which will give you the lessons that you need to learn and understand;

You Can Do It – which will help you apply the lessons learned in daily activities;

What I Have learned – which will test and evaluate your learning;

Share Your Thoughts and Feelings – which will help you express your thoughts, opinions feelings.

Make sure to read, think, follow, and enjoy every task that you are asked to do.

Have fun! Stay safe and healthy!

## MODULE

# 5

## LEARNING AROUND ME

### Learning Objectives

At the end of this module, you are expected to:

1. identify lessons on different experiences at home, in school, and in the community;
2. express insights gained from your experiences;
3. share actual instances where you can apply the lessons learned from experiences.

Period: Weeks 1 and 2 of 2nd Quarter

Suggested Total Time Allotment: 120 minutes

Materials Needed: Paper, pencil, crayons

### Introduction

Suggested Time Allotment: 10 minutes

Remember the first time that you were able to count or to learn ABC? You were trained about these at home

first. With the help of your family members, you are taught good lessons to lead you to a good life later on.

The things you learned at home are the basic things you use in learning more. There are many things more that you need to know. These are what you learn from school. You are being trained to use what you know in the best possible way everyday.

There are also many learnings that you can get outside your home and your school. You can learn many things from different people in the community. You can learn by simply watching and listening to a lot of things.

Everyday, you experience many events in life. They can be positive or negative. These allow you to improve what you think, say or do. How do you can these experiences important? Just do them right.

In school, you are trained on how to use your knowledge in the different subjects in the best possible way in our daily lives. It is where the things learned at home are enhanced. What did you want to know more about? In the community, simply watching and listening to a lot of things around you will contribute to your learning. Every day, different events that you experience, positive or negative, allows you to improve what you think, say or do. The trick to having these experiences become meaningful is doing them right.

This module is about your experiences at home, in school and in the community. Your own experiences can help you achieve in school. At home, your experiences with your family members will make you either happy or sad. Also, there are moments in school and in the community that will cause you to feel joy or sad. Do you

recall when and how these happened? These various experiences can be useful in your desire for learning so that you will be successful in your school.

## Let's Try This

**Suggested Time Allotment: 20 minutes**

Recall and write an event in your life where you learned a lot. It may have happened at home, in school or in the community. Write your answer on a clean sheet of paper. Answer the processing questions after.

### Processing Questions:

1. What important learning did you get from that experience?
2. What helped you to learn from the said experience?
3. Is it important for you to learn in any experience? Why?

## Let's Explore This

**Suggested Time Allotment: 25 minutes**

Complete the table by writing your experiences at home, in school and in the community on the second

column. On the third column, write down how the experience changed the way you think or behave. Do this on a sheet of paper. An example has been provided to guide you.

	My Experience	My Learning and How It Changed Me
Home	Helping in the house chores	I learned the value of being responsible. I applied it in doing my school tasks
Home		
School		
Community		

### Processing Questions:

1. How do you feel about your learnings?
2. Can you use these learnings in performing your school tasks? How?
3. Why is it so important to make use of these learnings in your studies?

## Keep in Mind

**Suggested Time Allotment: 5 minutes**

Experience is the best teacher. It becomes meaningful when you focus on the lessons that you can get from it. You may not be able to control situations all the time. There may also be time that people around you do things differently than you do. What do you have to do in these situations? Just learn to live with it. Focus on how you take these things on your self.

For instance, what does this pandemic experience try to teach you? It might be teaching you to be more disciplined and to follow directions to protect yourself. It can also teach you to be more independent in your studies.

In your studies, there's no teacher physically present to teach you. However, you can ask the help of the nearest adults at home to guide you in doing the activities in your modules. This experience teaches you to become independent. This is something that you can develop more because you will need this in the future.

Always find meaning with your experience. Try to identify what can you learn from it and apply the learning to improve yourself and your school performance.

## You Can Do It

**Suggested Time Allotment: 30 minutes**

You have already identified the experiences you had from your home, school and community. You have thought about what you have gained from these experiences. You will encounter more experiences in the future. As you go through, you become a better person because of the lessons from these experiences.

Ask your parent/guardian to be your partner for sharing. Share with him/her three examples about when you can apply the lessons you have learned from your experiences. Decide who will share first and who will listen. You will take turns in sharing. Listen attentively when your partner is talking.

# What I Have Learned

Suggested Time Allotment: 15 minutes

On a piece of paper, write three things that you can now do confidently as a result of your experiences. Explain each in two or three sentences.

# Share Your Thoughts and Feelings

Suggested Time Allotment: 15 minutes

Think of a symbol that would represent your most unforgettable experience so far. On your paper, draw a symbol and answer the question below.

Why a student like you should keep on learning?
